VOLUME 38, 1957

PUBLISHED QUARTERLY AT DURHAM, N. C.
BY THE
ECOLOGICAL SOCIETY OF AMERICA
AND THE
DUKE UNIVERSITY PRESS

ECOLOGY

A QUARTERLY JOURNAL

DEVOTED TO ALL PHASES OF ECOLOGICAL BIOLOGY

Established 1920

Editors: EDWARD S. DEEVEY, JR. (Zoölogy), Yale University.
ALTON A. LINDSEY (Botany), Purdue University.

Review Editor: R. H. WHITTAKER, Brooklyn College.

Business Manager: H. J. OOSTING, Duke University.

Circulation Office: Duke University Press, Box 6697, College Station, Durham, N. C.

MEMBERS OF THE EDITORIAL BOARD:

1955-57

JOHN E. CANTLON, Department of Botany and Plant Pathology, Michigan State University, East Lansing, Michigan.
NICHOLAS E. COLLIAS, Department of Biology, Illinois College, Jacksonville, Illinois.
GRANT COTTAM, Department of Botany, University of Wisconsin, Madison, Wisconsin.
DAVID E. DAVIS, School of Hygiene and Public Health, Johns Hopkins University, Baltimore, Maryland.
CORNELIUS H. MULLER, Department of Biology, Santa Barbara College, University of California, Goleta, California.
FREDERICK E. SMITH, Department of Zoology, University of Michigan, Ann Arbor, Michigan.

1956-58

CLIFFORD O. BERG, Department of Entomology and Limnology, Cornell University, Ithaca, New York.
H. H. BISWELL, School of Forestry, University of California, Berkeley, California.
PHILIPPE BOURDEAU, Yale Forestry Research Center, Valhalla, New York.
HENRY S. FITCH, Natural History Reservation, University of Kansas, Lawrence, Kansas.
FREDERICK H. TEST, Department of Zoology, University of Michigan, Ann Arbor, Michigan.
JACOB VERDUIN, Department of Biology, Bowling Green State University, Bowling Green, Ohio.

1957-59

THOMAS BURNETT, Dominion Parasite Laboratory, Belleville, Ontario.
CALVIN J. HEUSSER, Department of Exploration and Field Research, American Geographical Society, New York, N. Y.
JACK MAJOR, Department of Botany, University of California, Davis, California.
JERRY OLSON, Connecticut Agricultural Experiment Station, New Haven, Connecticut.
JOHN H. RYTHER, Woods Hole Oceanographic Institution, Woods Hole, Massachusetts.
DONALD WOHLSCHLAG, Department of Biology, Stanford University, Stanford, California.

Ex officio members: H. J. OOSTING, Duke University, Durham, North Carolina, and FRANCIS C. EVANS, University of Michigan, Ann Arbor, Michigan (the editors of ECOLOGICAL MONOGRAPHS).

Correspondence concerning editorial matters should be addressed to the appropriate Editor at the address given in the inside first cover. Books and papers for review should be sent to the Review Editor, Dr. R. H. Whittaker, Department of Biology, Brooklyn College, Brooklyn 10, New York.

Subscription price in the United States, Canada, and the Pan-American countries, $7.50 net a year for complete volumes (January-October); other foreign countries—$.60 a year additional for postage. Parts of volumes are to be had only at the single copy rate. Single copies, $2.00. Back volumes, as available, $8.00 each plus postage.

Missing numbers will be supplied free when lost in the mails if written notice is received within one month of the date of issue of the next succeeding number.

Remittances for subscriptions should be made payable to Duke University Press.

Remittances for dues should be made payable to the ECOLOGICAL SOCIETY OF AMERICA.

Business correspondence, including subscriptions, change of address, back numbers, and discontinuances, should be addressed to Circulation Office, Duke University Press, Box 6697, College Station, Durham, N. C. Correspondence regarding payment of dues in the ECOLOGICAL SOCIETY should be addressed to the Treasurer, Alexander C. Hodson, Department of Entomology, University of Minnesota, St. Paul, Minnesota.

Entered as Second Class Matter at the Post Office at Durham, North Carolina

TABLE OF CONTENTS, VOLUME 38, 1957

KOLLER, DOV. Germination-regulating mechanism in some desert seeds. IV. *Atriplex dimorphostegia* Kar. et Kir 1– 13

TRADOS, T. M. Evidence of the presence of an edapho-biotic factor in the problem of serpentine tolerance 14– 23

MCVAUGH, ROGERS. Establishment of vegetation on sand flats along the Hudson River, New York.—II. The period 1945-55 ..... 23– 29

MCINTOSH, ROBERT P. The York Woods, a case history of forest succession in southern Wisconsin 29– 37

SPURR, STEPHEN H. Local climate in the Harvard Forest 37– 46

Symposium on applications of ecology 46– 64

LUTZ, H. J. Applications of ecology in forest management 46–49

COSTELLO, DAVID F. Application of ecology to range management 49–53

HICKIE, PAUL. The application of ecology to wildlife management 53–56

STONE, EARL L., JR. The contribution of ecology to wildland soil management.. 57–60

BATES, MARSTON. Applications of ecology to public health 60–63

ELLISON, LINCOLN. Applications of ecology—concluding statement 63–64

ZWEIFEL, RICHARD G. Studies on the critical thermal maxima of salamanders 64– 69

TINKLE, DONALD W. Ecology, maturation and reproduction of *Thamnophis sauritus proximus* 69– 77

JUDD, W. W. The food of Jefferson's salamander, *Ambystoma jeffersonianum,* in Rondeau Park, Ontario 77– 81

HOWELL, J. F., D. M. ALLRED, AND D E. BECK. Seasonal population fluctuations of mites in desert wood rat nests in central Utah 82– 88

HAVEN, DEXTER S. Distribution, growth, and availability of juvenile croaker, *Micropogon undulatus,* in Virginia 88– 97

DA CUNHA, A. BRITO, A. M. EL-TABEY SHEHATA AND W. DE OLIVEIRA. A study of the diets and nutritional preferences of tropical species of Drosophila 98–106

PHILIP, J. R. Sociality and sparse populations 107–111

STICKNEY, ALDEN P., AND LOUIS D. STRINGER. A study of the invertebrate bottom fauna of Greenwich Bay, Rhode Island 111–122

WELLS, HARRY W. Abundance of the hard clam *Mercenaria mercenaria* in relation to environmental factors 123–128

MURRAY, KEITH F. Pleistocene climate and the fauna of Burnet Cave, New Mexico 129–132

MILLER, LOTUS SIMON. Tracing vole movements by radioactive excretory products 132–136

WANGERSKY, PETER J., AND W. J. CUNNINGHAM. Time lag in prey-predator population models 136-139

BILLINGS, W. D., AND A. F. MARK. Factors involved in the persistence of montane treeless balds 140–142

WAGENER, WILLIS W. The limitation of two leafy mistletoes of the genus *Phoradendron* by low temperatures 142-145

KOCH, LEO FRANCIS. Index of biotal dispersity 145–148

PENFOUND, WM. T., AND E. L. RICE. Plant population changes in a native prairie plot plowed annually over a five-year period 148–150

HUNGERFORD, KENNETH E. A portable instrument shelter for ecological studies 150–151

CONNOR, PAUL F. A method of plant dispersal by a mammal 151–152

ABBOTT, WALTER. Unusual phosphorus source for plankton algae 152

LOWRY, WILLIAM P. An inexpensive field instrument for non-selective net radiation measurements 152–155

JOHNSTONE, DONALD B. Isolation of *Azotobacter agile* from strawboard waste water..... 156
GRAHAM, BEN F., JR. Labelling pollen of woody plants with radioactive isotopes..... 156–158
BILLINGS, W. D., AND J. H. THOMPSON. Composition of a stand of old bristlecone pines in the White Mountains of California..... 158–160
WELLS, HARRY W. Status of the name *Venus*..... 160–161
NICHOLSON, WILLIAM R., AND DAVID E. DAVIS. The duration of life of muskrat houses.. 161–163
DAVIS, DAVID E. The existence of cycles..... 163–164
BURKENROAD, MARTIN D. Intensity of setting of starfish in Long Island Sound in relation to fluctuations of the stock of adult starfish and in the setting of oysters..... 164–165
BIRCH, L. C., AND BRUNO BATTAGLIA. The abundance of *Drosophila willistoni* in relation to food in natural populations..... 165–166
SPRINGER, STEWART. Some observations on the behavior of schools of fishes in the Gulf of Mexico and adjacent waters..... 166–171
JOHNSGARD, P. A., AND W. H. RICKARD. The relation of spring bird distribution to a vegetation mosaic in southeastern Washington..... 171-174
KARLSTROM, ERNEST L. The use of Co^{60} as a tag for recovering amphibians in the field... 187–195
WEISE, JOHN G. The spring cave-fish, *Chologaster papilliferus,* in Illinois..... 195–204
SMITH, PHILIP W. An analysis of post-Wisconsin biogeography of the Prairie Peninsula region based on distributional phenomena among terrestrial vertebrate populations..... 205–218
GERKING, SHELBY D. A method of sampling the littoral macrofauna and its application.. 219–226
COLE, LAMONT C. The measurement of partial interspecific association 226–233
TABER, RICHARD D., AND RAYMOND F. DASMANN. The dynamics of three natural populations of the deer *Odocoileus hemionus columbianus* 233-246
HOYT, SALLY F. The ecology of the pileated woodpecker 246-256
GOSNER, KENNETH L., and IRVING H. BLACK. The effects of acidity on the development and hatching of New Jersey frogs..... 256–262
WALKER, THOMAS J., JR. Ecological studies of the arthropods associated with certain decaying materials in four habitats..... 262–276
JACKSON, WILLIAM B. Microclimatic patterns in the army ant bivouac..... 276–285
KUCERA, C. L., AND S. CLARK MARTIN. Vegetation and soil relationships in the glade region of the southwestern Missouri Ozarks..... 285–291
KERSHAW, K. A. The use of cover and frequency in the detection of pattern in plant communities 291–299
QUARTERMAN, ELSIE. Early plant succession on abandoned cropland in the central basin of Tennessee 300–309
WILLSON, DAN, AND HERMAN S. FOREST. An exploratory study on soil algae..... 309–313
HEADY, HAROLD F. The measurement and value of plant height in the study of herbaceous vegetation 313–320
DAUBENMIRE, R. Influence of temperature upon soil moisture constants and its possible ecologic significance 320–324
MASON, HERBERT L., AND JEAN H. LANGENHEIM. Language analysis and the concept *Environment* 325–340
BEADLE, N. C. W., R. D. B. WHALLEY, AND J. B. GIBSON. Studies in halophytes. II. Analytic data on the mineral constituents of three species of *Atriplex* and their accompanying soils in Australia..... 340–344
ASHBY, W. C., AND N. C. W. BEADLE. Studies in halophytes. III. Salinity factors in the growth of Australian saltbushes..... 344–352
MILLER, RICHARD S. Observations on the status of ecology 353–354
KING, JOHN A. Intra- and interspecific conflict of Mus and Peromyscus..... 355–357
COLE, LAMONT C. A surprising case of survival..... 357

WOODS, FRANK W. Factors limiting root penetration in deep sands of the southeastern costal plain 357–359
WALLIS, G. W., AND S. A. WILDE. Rapid method for the determination of carbon dioxide evolved from forest soils 359–361
LEISMAN, GILBERT A. Further data on the rate of organic matter accumulation in bogs.... 361
CARPELAN, LARS H. Hydrobiology of the Alviso salt ponds 375–390
NELSON, THOMAS C. The original forests of the Georgia Piedmont 390–397
SWINDALE, DELLE N., AND JOHN T. CURTIS. Phytosociology of the larger submerged plants in Wisconsin lakes 397–407
STONE, EDWARD C. Dew as an ecological factor. I. A review of the literature..... 407–413
STONE, EDWARD C. Dew as an ecological factor. II. The effect of artificial dew on the survival of *Pinus ponderosa* and associated species..... 414–422
KEEVER, CATHERINE. Establishment of *Grimmia laevigata* on bare granite 422–429
RITCHIE, J. C. The vegetation of northern Manitoba. II. A prisere on the Hudson Bay lowlands 429–435
DYKSTERHUIS, E. J. The savannah concept and its use 435–442
UTIDA, SYUNRO. Cyclic fluctuations of population density intrinsic to the host-parasite system 442–449
TALBOT, MARY. Population studies of the slave-making ant *Leptothorax duloticus* and its slave, *Leptothorax curvispinosus* 449–456
PROCTOR, VERNON W. Some controlling factors in the distribution of *Haematococcus pluvialis* 457–462
HARRIS, EUGENE K. Further results in the statistical analysis of stream sampling..... 463–468
MARTIN, PAUL S., AND BYRON E. HARRELL. The Pleistocene history of temperate biotas in Mexico and eastern United States..... 468-480
WEBER, NEAL A. Fungus-growing ants and their fungi: *Cyphomyrmex costatus* 480–494
MARTOF, BERNARD S., AND DONALD C. SCOTT. The food of the salamander Leurognathus.. 494–501
WOHLSCHLAG, DONALD E. Differences in metabolic rates of migratory and resident freshwater forms of an arctic whitefish..... 502–510
FRANK, PETER W. Coactions in laboratory populations of two species of *Daphnia*..... 510-519
KELTING, RALPH W. Winter burning in central Oklahoma grassland 520–522
BLYDENSTEIN, JOHN, C. ROGER HUNGERFORD, GERALD I. DAY, AND R. R. HUMPHREY. Effect of domestic livestock exclusion on vegetation in the Sonoran Desert..... 522–526
SUTCLIFFE, W. H., JR. Observations on the growth rate of the immature Bermuda spiny lobster, *Panulirus argus* 526–529
TANNER, JAMES T. A wet-bulb and dry-bulb recording thermometer 530–531
ODUM, EUGENE P. The ecosystem approach in the teaching of ecology illustrated with sample class data 531-535
FLANDERS, STANLEY E. The complete interdependence of an ant and a coccid..... 535–536
WHITTAKER, R. H. The kingdoms of the living world 536–538
GRIFFITH, RUTH E. A portable apparatus for collecting horizontal plankton samples..... 538–540
GERLOFF, GERALD C., AND FOLKE SKOOG. Availability of iron and manganese in southern Wisconsin lakes for the growth of *Microcystis aeruginosa* 551–556
GERLOFF, GERALD C., AND FOLKE SKOOG. Nitrogen as a limiting factor for the growth of *Microcystis aeruginosa* in southern Wisconsin lakes 556–561
GOODWIN, MELVIN H., JR., AND G. J. LOVE. Factors influencing variations in populations of *Anopheles quadrimaculatus* in southwestern Georgia 561–570
LOVE, G. J., AND J. G. WHELCHEL. Lethal effects of high temperatures on the immature stages of *Anopheles quadrimaculatus*..... 570–576
PIMENTEL, DAVID. Life history of *Australorbis glabratus*, the intermediate snail host of *Schistosoma mansoni* in Puerto Rico..... 576–580

PEARSON, PAUL G. Further notes on the population ecology of the spadefoot toad 580–586
FAGER, EDWARD W. Determination and analysis of recurrent groups 586–595
HUBBS, CLARK, AND KIRK STRAWN. The effects of light and temperature on the fecundity of the greenthroat darter, *Etheostoma lepidum* 596–602
